## Getting Started: Diagnostic Phone Consultation

Thank you for participating in 1800MD's Network. This platform will guide you in a step-by-step process for consulting and documenting a patient's consult.

Accepted By: Dr. Carlos Ferrario

Consultation Type: Diagnostic Phone Consultation

**Patient:** Alexandra Kapusta

Gender: Female Age: 26 Date of birth: 12/05/1982

### Reason for Consult

I have been suffering from a soar throat for more then one(1) week, with no signs of improvement. My symptoms are accompanied by a low grade fever & body aches. I am currently taking Muxinex DM, and Aleve as needed.

# E-Prescribing

*Send prescriptions directly to the patient's pharmacy of choice via the SureScripts Network*

## Important information about E-Prescribing

- 1 DEA Controlled Substances may NEVER be prescribed during a consultation prescribed by 1800MD. The controlled substance schedules can be reviewed at [Here](#).
- 2 All prescription decisions are made solely by the consulting physician, and it is the consulting physician's responsibility to ensure the medical appropriateness of any prescription. There is never an obligation to prescribe.
- 3 1800MD strongly advises that refill prescriptions for chronic medication should be limited to the period of time needed for the patient to get treatment from his/her primary care provider, and in no case for more than a 30-day supply. Prescriptions should not be entered with refills.
